---

## Professional Summary

Enterprise Data Engineer specializing in AI Platform Engineering, bringing 5 years of Enterprise MarTech, Client Success, and Campaign Operations experience supporting Fortune 500 organizations across Telecommunications, Banking, Insurance, Healthcare, Retail, Travel, and Aviation. Creator of OpenMarTech AI—an open-source Enterprise Marketing Decision Intelligence Platform demonstrating production-inspired Enterprise Data Engineering, Lakehouse Architecture, Real-Time Event Streaming, Machine Learning, MLOps, Responsible AI, Explainable AI, and Generative AI.

## Technical Expertise

**Programming:** Python • SQL

**Data Engineering:** Apache Spark • PySpark • Kafka • Flink • Airflow • Iceberg • dbt

**Streaming & Data Integrations:** CDC • Debezium • Airbyte • Trino • PostgreSQL

**Databases & Storage:** DuckDB • MinIO • HDFS • Hive

**ML & AI:** Spark MLlib • MLflow • SHAP • RAG • LangChain • LangGraph • ChromaDB • Dify • Langfuse

**Cloud:** AWS (S3, Glue, EC2, Athena, Lambda) • Docker • Git • GitHub

**Analytics:** Power BI • Streamlit • Plotly • Apache Superset

**Domain:** Enterprise MarTech • Client Success • Campaign Operations • Marketing Automation • Agile

## Professional Experience

**Senior Executive – Digital Marketing | Aptroid Consulting India Pvt. Ltd. | Jul 2019 – Aug 2024**

- Delivered enterprise MarTech, Client Success and Campaign Operations solutions for Fortune 500 organizations.
- Executed enterprise digital marketing campaigns while collaborating with business and technology teams.
- Managed campaign operations, reporting, quality assurance, stakeholder communication and performance optimization.
- Enabled data-driven marketing decisions through analytics and operational excellence.

## Core Competencies

Enterprise Data Engineering • AI Platform Engineering • Lakehouse Architecture • Event Streaming • Machine Learning & MLOps • Retrieval-Augmented Generation (RAG) • Responsible AI & Explainable AI • Enterprise Marketing Decision Intelligence

## Flagship Engineering Projects

### OpenMarTech AI (Enterprise Marketing Decision Intelligence Platform)

Designing and developing an open-source Enterprise AI Data Platform that demonstrates production-inspired implementation of:

- Enterprise Data Engineering
- Lakehouse Architecture
- Batch & Real-Time Data Processing
- Event Streaming & CDC
- Machine Learning & MLOps
- Responsible AI & Explainable AI
- Retrieval-Augmented Generation (RAG)
- AI Agents & Workflow Automation
- AI Observability
- Executive Decision Intelligence

## Responsible AI-Driven Autonomous Data Ecosystem for Enterprise Decision Intelligence (Capstone)

Designed and implemented a production-inspired Enterprise AI Data Platform showcasing:

- End-to-end Data Engineering
- Lakehouse Architecture
- Real-Time Event Streaming
- Responsible AI
- Explainable AI (SHAP)
- Machine Learning Lifecycle Management
- Retrieval-Augmented Generation (RAG)
- AI Workflow Automation
- Executive Business Intelligence

## Education

Bachelor of Technology (Electrical & Electronics Engineering)

Master of Business Administration (Marketing)

## Certifications

Certified ScrumMaster (CSM)

Applied Agentic AI for Modern Data Engineering
